

BAD guys song

- ③ We like to keep the workforce under our thumb
They can't use netscape, they can't have net fun,
But when the office door is closed we're throttled to bits,
(as we download pictures of Pamela Anderson... Lips!
- ④ We've just invented something that is really divine,
It's the dark side pub, it's called the isobar
The toilets smell, they sell disgusting beer
And we built it on Pluto so it's got no atmosphere! → CHORUS
- ⑤ So you're in your final year and you want a job
We'll suck you in, you can join our mob
You can't resist the pull, you know it's your fate,
But don't forget to hand your personality in at the gate!
- ⑥ To demonstrate the power of the dark side of the Force
We're going to suck the weather out of the universe
Planet Newbuilding will succumb to the Death GCM
^{EW} I just hope nobody checks the gravity wave drag parameterisation! → CHORUS
-
- ① ^{DV} I'm Darth Valdes ^{EW} and I'm Effroer Webster
We're the bad guys and we live on the death star
^{DV} I used to be a PV knight until I found it unbearable
^{DV} Now I know PV stands for Postless Variable!
- ② We seduce unwary postdoc's to the forces of evil
We promise higher salaries and your own X-Terminal
But you'll get 5 thousand Volts when you start a new line
^{EW} Why do you think I look like a porcupine!
→ CHORUS
