# James Sonde: The spy who loved Meteorology

## Director

Natalie Moore

## Producer

Michael Glinton

### Scene 1

We meet Editor-in Chief of Weather Action Weekly, Piers Corbyn. What has he got to do with our story? Absolutely nothing!

### Scene 2

James Sonde is sent on his latest mission to the Gulf of Mexico by his supervisor, M. But first he must get the customary gadgets from G.

### Scene 3

Out in the Gulf our hero meets top agents Sid and Rosemary, and a few other familiar faces as well as finding a "fishy" Licence to Spill

### Scene 4

Whilst Sonde is away the villainous organisation known as HECToR is having their weekly group meeting in the Coffee Room. What are our favourite members of staff up to?

### Scene 5

With HECToR's plan in place will Sonde make it back to Reading without being intercepted? And will he finally find a sidekick?

## INTERVAL ENTERTAINMENT

### Scene 6

In an attempt to rescue his sidekick Sonde heads to Chilbolton. Not only does he find his companion but also Dr Evil Hogan, Mini Rob Thompson and Anthony Illingworth.

### Scene 7

Having escaped the evil clutches of Dr Evil Hogan, Sonde heads back to Reading to get to the bottom of who is behind the Licence to Spill. Will M be able to help him?

### Scene 8

With no help from M, Sonde discovers the location of HECToR's secret base. After an attack from Dr Snow, a musical interlude and remembering to sign out, our hero heads to Iceland.

### Scene 9

This is the obligatory action scene, deep inside a volcano. But how will Sonde dispose of our evil villains?

### Scene 10

With HECToR defeated our heroes head back to Reading, for a quick debriefing and obviously a song!
