The Lion, the Witch and the Met Lift

THURSDAY 15th
DECEMBER 2011

Madejski Theatre
Agriculture

Official Programme

The Lion, the Witch and the Met Lift

Director

Robert Warren

Producer

Robert Lee

Scene 1

Lucy, a first year PhD student at Imperial College London, is called for an emergency meeting with her post-nominal-phenomenal supervisor. When things take a turn for the worse, our heroine must make a hasty escape.

Scene 2

Having fled London, Lucy arrives at the Department of Meteorology in Reading where she is introduced to her new supervisors: Edmund, Susan and Peter. To get to her office she must use the Met Lift.

Scene 3

Our heroine finds herself in a strange wintery land called NARNIA. There she meets a rather jolly faun who explains the dastardly dealings of the wicked White Witch.

Scene 4

Having followed Lucy into the Met Lift, Edmund encounters the White Witch and her mouthy minion, who show him an insight into just what PhD students get up to in the department and offer him a deal he can't refuse.

Scene 5

Reunited with Susan and Peter, Lucy journeys through the frozen wilderness of NARNIA in search of the beavers, but is interrupted by a very dramatic encounter with Father Christmas.

Interval Entertainment

Scene 6

Lucy and the others find the beavers who speak of Aslan, the heroic true ruler of NARNIA. But can they reach him before Edmund stitches them up with the White Witch? Only if the Beavers stop arguing!

Scene 7

Finally our heroes meet Aslan! Together they plan to overthrow the White Witch and return NARNIA to it's former glory. But Edmunds dirty double-crossing lands Aslan an early exit. Now what?

Scene 8

This means war. Aslan's army go head to head with the White Witch and her minions in a series of epic battles. FIGHT!

Scene 9

After many years in NARNIA our fearsome foursome unknowingly re-enter the Met Lift and find themselves back in the real department. Looks like it's back to work as normal!

The Songs

'I Predict A (Posh) Riot'

Original music and lyrics by Ricky Wilson
