

<p>I hear the drums echoing tonight But she hears only whispers of some quiet conversation</p> <p>She's coming in 12:30 flight moonlit wings reflect the stars that guide me towards salvation</p> <p>I stopped an old man 'long the way,</p> <p>Hoping to find some old forgotten words or ancient melodies</p> <p>He turned to me as if to say, Hurry boy, It's waiting there for you</p> <p>CHORUS: It's gonna take a lot to take me away from you</p> <p>There's nothing that a hundred men or more could ever do</p> <p>I bless the rains down in Africa</p> <p>Gonna take some time to do the things we never have</p> <p>The wild dogs cry out in the night</p> <p>As they grow restless longing for some solitary company</p> <p>I know that I must do what's right</p>	<p>I hear the gauge filling up tonight But it sees only micr'waves from some shallow precipitation.</p> <p>If all the calibration's right We'll have dekads for every single African nation</p> <p>We'll soon have a climatology</p> <p>Hoping to find some global warming trends or recent signals</p> <p>T-A-M-S-A-then T Emission boy, it's waiting there for you</p> <p>It's Hy-der-omet-e-ors that we persue</p> <p>It's nothing that a hundred ground radar could ever do</p> <p>We measure rainfall in Africa</p> <p>Better than trmm, modis or cloudsat could ever have</p> <p>Cumulonimbus light up the night</p> <p>As they grow punching straight into the stratosphere</p> <p>Here you'll find the I-TCZ</p>
---	--

As sure as Kilimanjaro rises like
Olympus above the Serengeti
I seek to cure what's deep inside,
frightened of this thing that I've
become

CHORUS

(Instrumental break)

Hurry boy, she's waiting there for
you

It's gonna take a lot to take me
away from you

There's nothing that a hundred
men or more could ever do

I bless the rains down in Africa,
I bless the rains down in Africa
I bless the rains down in Africa,
I bless the rains down in Africa
I bless the rains down in Africa
Gonna take some time to do the
things we never have

As sure as congestus rises like
Olympus over the Serengeti
We seek to find what's deep
inside precip is this thing that
they've become

Brightness temperatures give
us the clue.

It's Hy-der-omet-e-ors that we
persue

It's nothing that a hundred
ground radar could ever do

We measure rainfall in Africa
We measure rainfall in Africa
We measure rainfall in Africa
We measure rainfall in Africa
We measure rainfall in Africa
Better than trmm, modis or
cloudsat could ever have
